

Sustainable Packaging

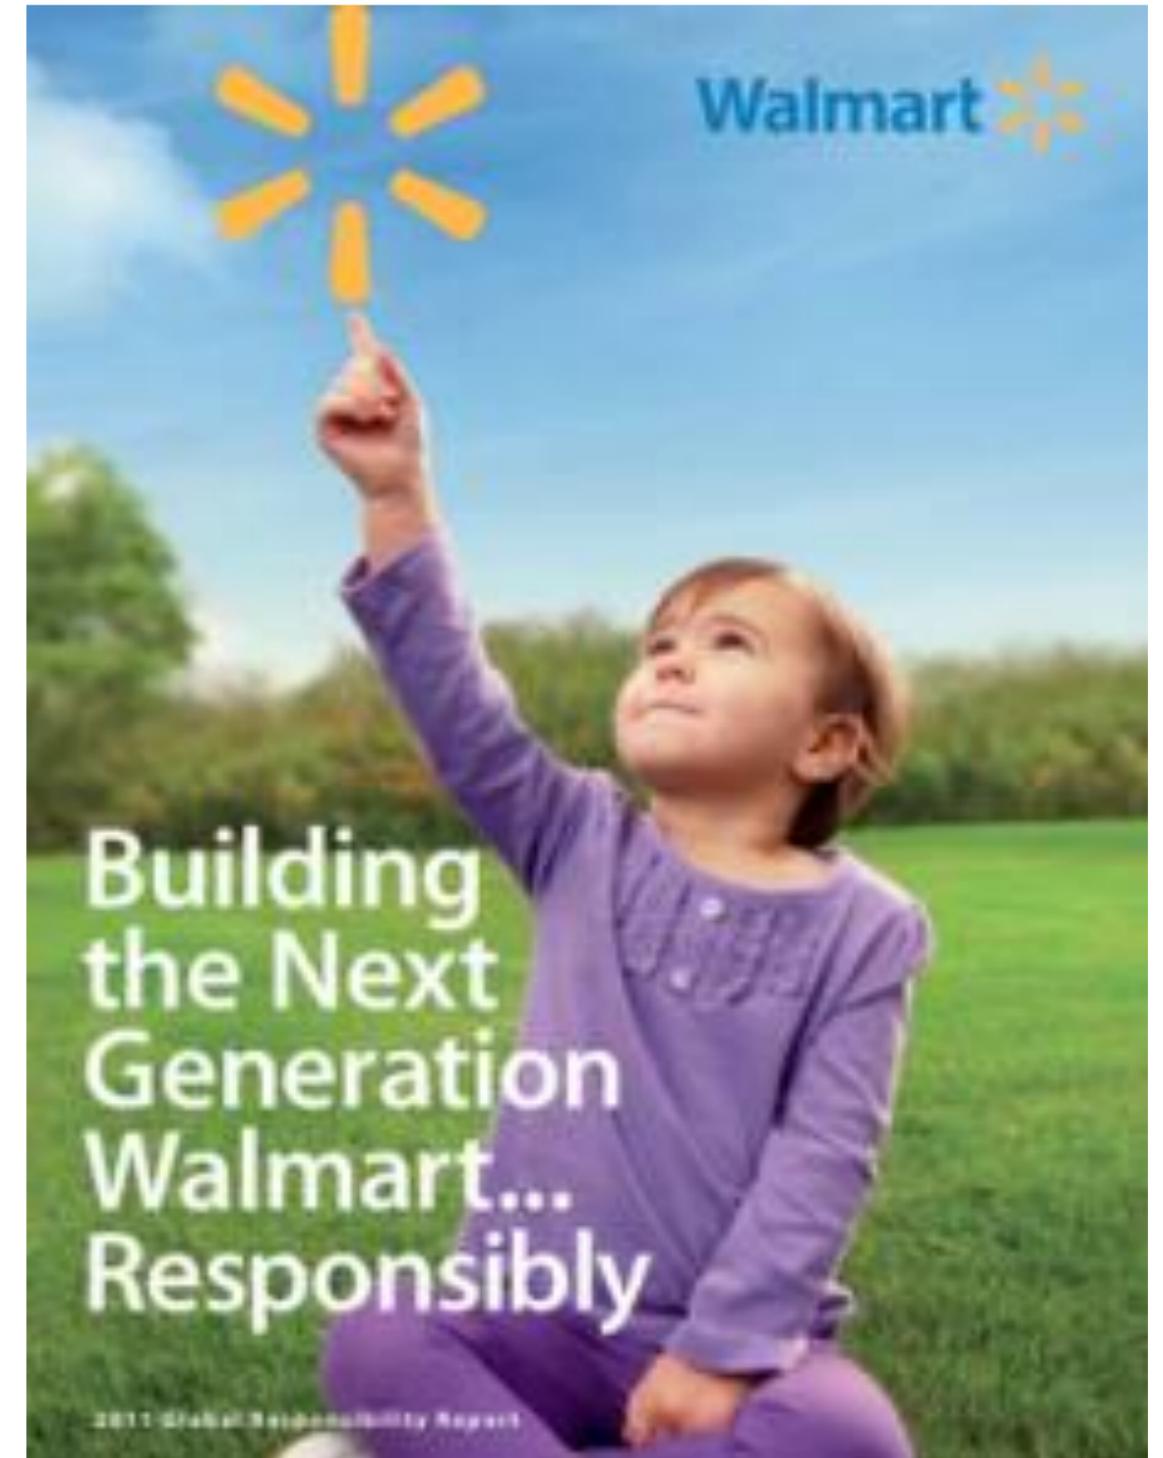

DivertNS March 5th 2020

Sustainability Overview

Goals

- To be supplied 100% by renewable energy
- To create zero waste
- To sell products that sustain people and the environment

Advancing the Circular Economy

Project Gigaton™

We're working with our suppliers to reduce greenhouse gas emissions from our supply chain by **1 Gigaton**.

Suppliers can make commitments in

- Energy
- Agriculture
- Waste
- Products
- Deforestation
- Packaging

Our Plastic & Packaging Vision

For Private Brands *(Encouraged for National Brands)*

Reduce the use of plastic when possible

20% Recycled content in plastic packaging

100% Recyclable, reusable, or industrially compostable

100% Packaging labeled for recyclability

Remove unnecessary packaging

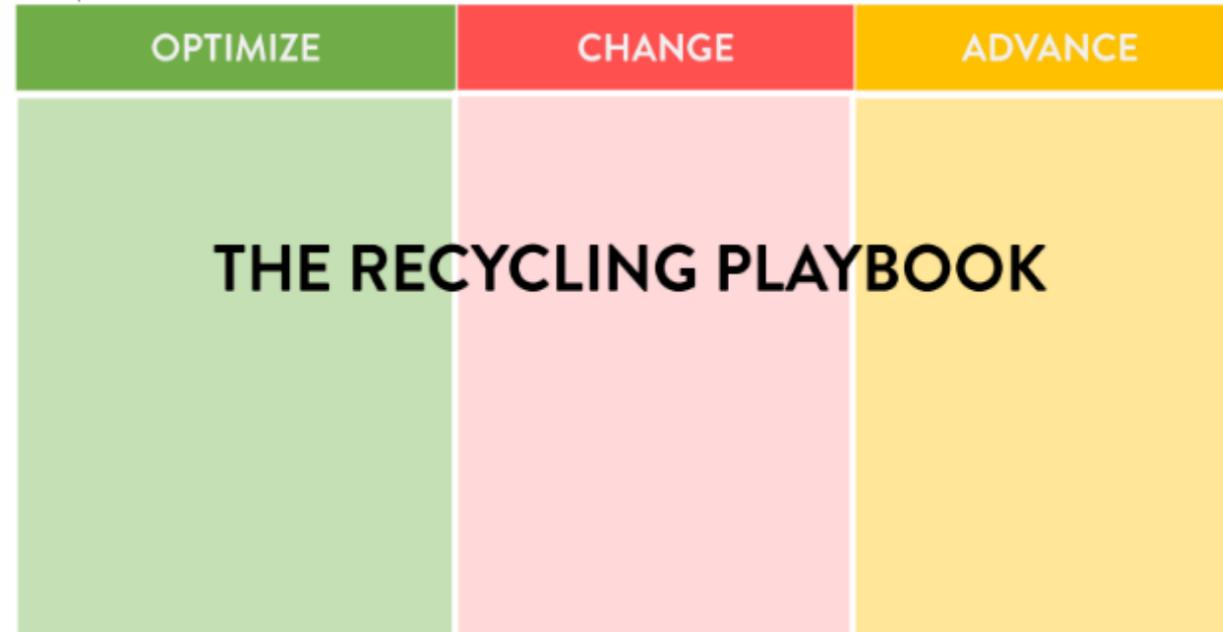

Increased recycled content

Make packaging recyclable

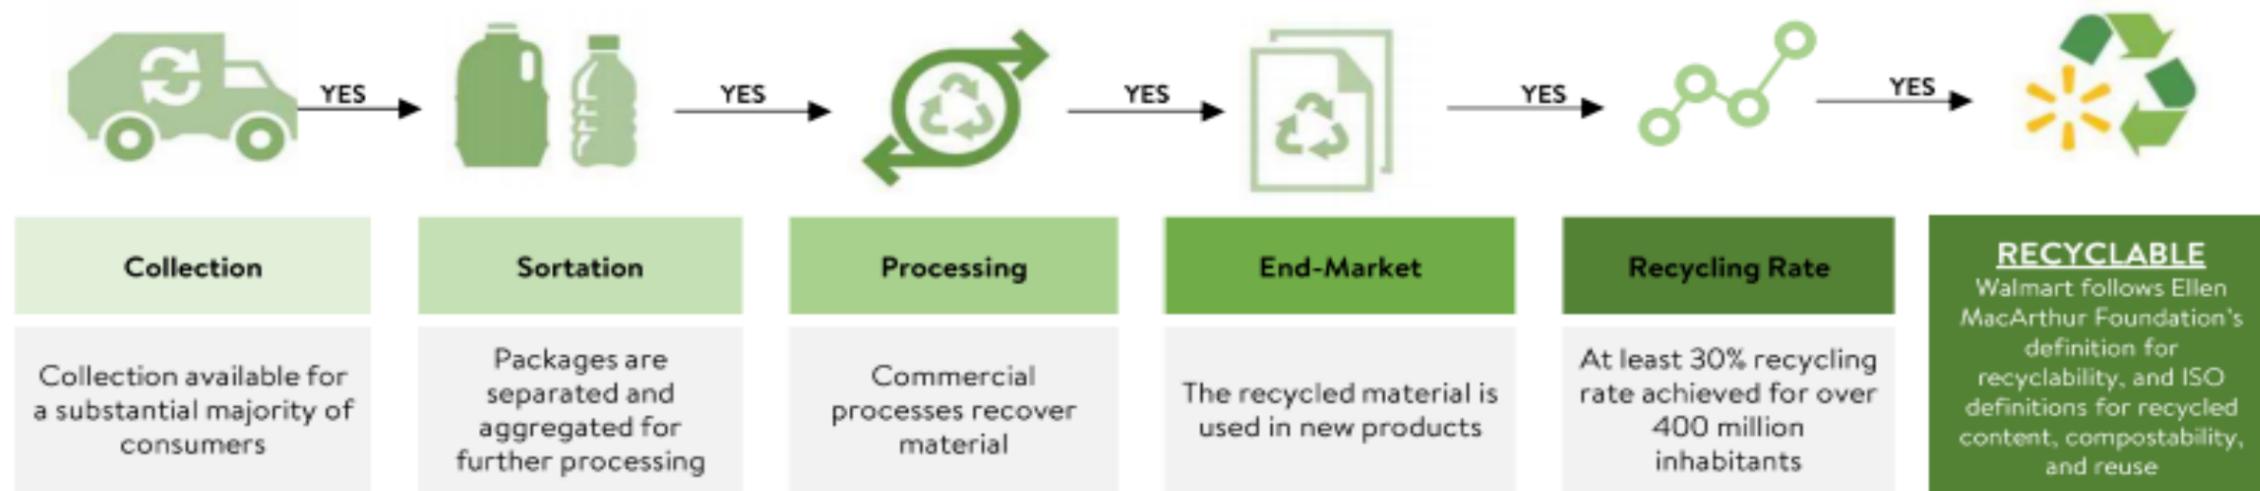

Apply the How2Recycle label

Walmart Recycling Playbook

Progress & Opportunities

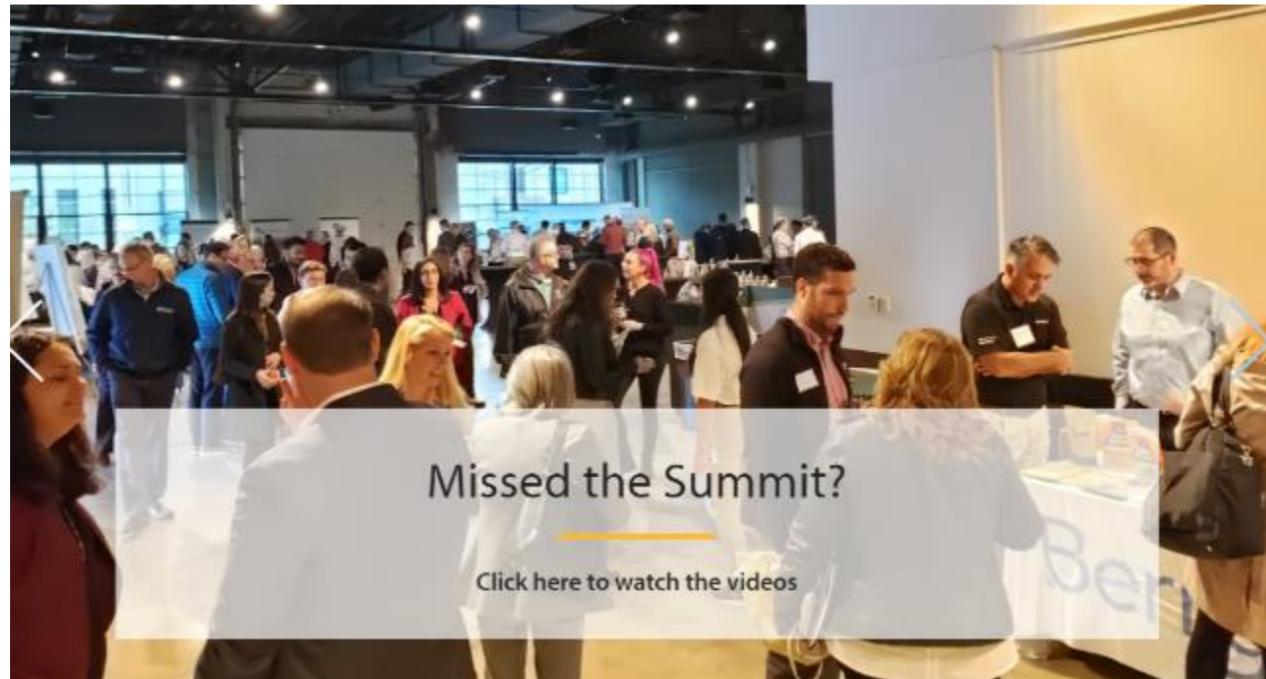

Walmart Globally.....

Asda trials refills at 'sustainability store'

© 16 January 2020

Asda is launching a "sustainability store" where shoppers can fill their own containers with food.

Walmart Canada...

Update: Walmart Canada prevents 1.1 million pounds of plastic from entering its supply chain

The background features several light blue, rounded, abstract shapes that resemble stylized arrows or brush strokes, arranged in a circular pattern around the central text.
